

Selected Presentations, CPD and Training Sessions

Updated 2024-01-23

Date	Location	Topics	# Rec./ Pub.	# Pract/ Res.	Presenter(s) Jamieson +
23-Jan-24	U. Calgary	Snow avalanche characteristics. Contrasting avalanches & other slope hazards	20 grad students		
05-Jan-24	Sorcerer Lodge	Surface hoar	15	5	
03-Dec-23	Whistler, BC	Uncertainty in avalanche operations. Near crust faceting		30	
27-Nov-23	Blue River, BC	Surface hoar		30	
03-May-23	Penticton, BC	Avalanche Size: new ideas for consistency	~200 in person, ~20 virtual		Carson, Larson, Martland
30-Mar-23	MoTI Coq (online)	Avalanche Size: new ideas for consistency		6	
19-Jan-23	U. Calgary	Snow avalanche characteristics. Contrasting avalanches & other slope hazards		6	
14-Dec-22	Teluride Helitrax (online)	Managing uncertainty in avalanche operations		11	
13-Nov-22	Fernie, BC	A more visual method for estimating avalanche size	160		T Carson, L. Larson
15-Oct-22	Breckenridge	Estimating avalanche size from far and near; Tension in the slab	450 + 350		W. McElroy
03-May-22	Penticton, BC	Tension in snow slabs?	100 in person + 50 virtual		S. Thumlert, G. Statham
28-Apr-22	webinar for AGHP	Snow avalanche dynamics and impact		11	D. Gauthier
28-Mar-22	webinar for Queens geohazards students	Snow avalanche dynamics, impact and mitigation		15	D. Gauthier
09-Mar-22	webinar for CAIC forecasters	Solar warming and avalanching		23	
13-Nov-21	Bend SAW (virtual)	Communicating avalanche likelihood	250?		
15-Oct-21	Colorado Snow Avalanche Workshop	Common ski cutting practices	~450
